

Letter 625
DREAM
New World Medicine
2017-09-18

Dear **Jesus**,

Monday, 18 September 2017, 2AM.

Yesterday while sleeping I had a dream that woke me up.

I DREAMED THAT:

I was at a Medical Clinic being seen by a Doctor in an Exam Room.

The Doctor appeared to be from India, and spoke with a slight Indian accent.

I started to tell him what was wrong with me, and then I began to say that I believed in Jesus, and trusted Him for all my medical needs.

As soon as I spoke Your name, the Doctor's face began to glow with excited acknowledgement, and he began to speak joyous words of consensus, saying that he also believed, and was in agreement with me about Who to pursue for any further Medical Treatments.

END OF DREAM:

I think that I went back to sleep for about an hour after this dream, and woke up for the day a little after 5:30PM. But I stayed in bed for a while enjoying some the ministry of comfort Your angels give to me on an ongoing basis.

While being so comforted I realized the meaning of the dream. In the dream I was actually meeting with one of the angels who You are sending to replace Hermes and all of his resources. See Letters 174, 175 Volume 4; 490, 529 Volume 6; and 570 Volume 7. In this case, in the World of Medicine.

With this realization I became very happy, knowing then that the Medical Community is truly coming under new Kingdom Management.

Praise God! Thank You for this very good turn of events.

Blessings...

R. C. Theophilus
