**DREAM**  
**Public Transit SOGS**  
2017-10-02

Dear **Jesus**,

**Monday, 2 October 2017, 7AM.**

Last night I had two dreams. One was at about 3:30PM. The other was at about 6:30PM. I don't remember the second dream, but in the first dream;

**I DREAMED THAT:**

I was attempting to find a way to get on a bus to my destination. Then I found myself on a very crowded, noisy Bus. Almost immediately after I got on I pushed the rubber strip to signal my stop, and when I got off at the next stop another passenger, a woman, got off in front of me. She then turned back toward the bus driver and was saying something that I couldn't understand due to the outside noise.

**END OF DREAM.**

I woke up both times with very sore shoulders. The first time I asked for angel Gabriel to come into my bedroom and massage my shoulders so I could get back to sleep.

Much later after I woke up for the day, the Lord began to inform me as to the nature of the dream.

Apparently, the Bus full of people were SOGS on their way to bring further corruption to Public Transportation. The Lady who got off the bus was one of them, and had been ordered to follow me and spy on my activities.

But after I woke up at 3:30, all of them were rounded up and sent to be Grilled and Pitted.

Blessings...
