

Letter 638  
**DREAM**  
**Room 601**  
2017-11-05

Dear **Jesus**,

**Thursday, 2 November 2017 2017, 7AM.**

Yesterday while sleeping I had a dream.

**I DREAMED THAT:**

I was on my way to a Motel where I was going to stay for a while. I had told my Youngest Brother where I was going to be, and invited him to come visit me there.

After arriving and checking in at the Main Desk, I went to my Room, unpacked my things, and went into the bathroom to take a shower.

Halfway through my shower I remembered that I hadn't told my Brother what room I was in, because when I first invited him, I hadn't checked in to the Motel yet, and didn't have that information. So I stopped the water, put my robe on, and, just to double check and make sure I knew what room I was in, I opened the door to the outside to look at the number on the door.

As soon as I poked my head outside, I saw to my left what appeared be a part of the Motel that had Offices in it. There were two or three windows, and I could see inside that there were Office Staff working. I saw one Worker, a Young Woman, rather clearly.

But I didn't want to remain any longer than I needed with my mostly covered but still wet body partially protruding outside of my room.

So I quickly looked at the exterior of the door and saw the number. It read 601. Then I went back into my room and closed the door behind me. I immediately called my Brother on his Cell Phone and let him know I was in room 601. Then I went back into the bathroom and finished taking my shower.

**END OF DREAM.**

After waking up I knew that the number 601 was important. So after I had some coffee, I came into my office and started to think about that it might be.

I started to think about maybe Psalms 60:1, but angel Gabe pointed me to Isaiah 60:1.

Here it is:

Arise, shine;  
For your light has come!  
And the glory of the Lord is risen upon you.  
**Isaiah 60:1**

I also saw a lot of detail when I stuck my head out the door. If one was standing outside of Room 601, facing the door, Room 602 would be to the left, so the rooms were counting down from left to right. To the right of Room 601 was the Office Suite that I saw. The Office part jutted out from the Row of rooms, forming a kind of "L" shape.

I saw the Windows, that they were two-paned and had aluminum frames, and could be opened by sliding one of the panes sideways. This reminded me of a Motel which my wife and I stayed in on the Olympic Peninsula one year for Thanksgiving.

This Motel was not part of any Corporate Chain, but its outside construction did remind me of a Motel 6. However, the rooms themselves would be an upgrade from a Motel 6, since there was more space inside, and they had nicer furnishings.

Blessings...
