

Letter 644
DREAM
Exit The Massage Lady
2017-11-26

Dear **Jesus**,

Tuesday, 14 November 2017 2017, 7AM.

Yesterday I woke up with very sore shoulders. Just before that I had a dream.

I DREAMED THAT:

I was with my Licensed Massage Practitioner of over 15 years. We were outside of her clinic, but the exterior was different. The landscape was one that looked like an old battlefield, or that some construction demolition had taken place years before.

Then I saw that she had what appeared to be a skin infection all along the left side of her neck, which I could tell extended down past the neckline of her shirt. Then as we looked at each other face to face, I saw that she was smoking a cigarette.

I was trying to tell her of some history of my injuries that I had obtained at Harborview Hospital, but she was much more interested in smoking than listening.

END OF DREAM.

After inquiring of the Lord Holy Spirit, I was led to the knowledge that the Lady in my dream was the Lead Angel of Hell assigned to my (real) LMPs destruction, and that in the dream I had been wrestling with the evil spirit. After I woke she was removed to the Pit.

Blessings...

R. C. Theophilus
