On 26 February the Academy Awards Ceremony was overturned by the reading of the wrong movie for Best Picture - La La Land, instead of Moonlight. This "mistake" was Your way of messaging Your opinion that the celebration of sexual deviancy by Hollywood is actually an excursion into La La Land.

"Moonlight won three awards including Best Picture and La La Land won the most awards of the ceremony with six after receiving a record-tying 14 nominations. In an event unprecedented in the history of the Oscars, La La Land was incorrectly announced as the Best Picture. After a few minutes the error was corrected and Moonlight was declared the winner. Moonlight became the first film with an all-black cast and the first LGBT-themed film to win Best Picture." From Wikipedia .com

15 Oct - #MeToo. Harvey Weinstein and other Men of Power disgraced and removed from power after years of sexually abusing women and men.

The movement felled powerful men. After investigations by The New York Times and the New Yorker revealing years of allegations of sexual misconduct, Hollywood mogul Harvey Weinstein was fired from the company he built; Netflix cut ties with Kevin Spacey after several men came forward with stories of harassment; the premiere for Louis CK's latest film was pulled after he admitted to inappropriate behavior; and several members of Congress have either announced their resignation or that they will not seek re-election after allegations of harassment and misconduct. Congress passes tax law removing the personal mandate to purchase medical insurance.

The tax bill succeeded where Republicans have repeatedly failed for years: It repealed the individual health care mandate, dealing a blow to Obamacare.

U. S. Embassy moves to Jerusalem, with other nations to follow.

The Jerusalem Embassy Act, passed by Congress in 1995, requires the United States to relocate its embassy in Israel from Tel Aviv to Jerusalem by December 31, 1999 and that Jerusalem be recognized as the capital of Israel. The Embassy remains in Tel Aviv because the Act also allows for the President to "delay the implementation of the law indefinitely if the move presents national security concerns." Presidents Bill Clinton, George W. Bush, and Barack Obama have regularly invoked the clause, delaying the move of the embassy to Jerusalem. In 2017, President Donald Trump officially declared Jerusalem to be the capital of Israel and ordered the State Department to begin moving the embassy. The relocation process is expected to take around 4 years. From Wikipedia.com

Of course, this entire year You have been active all around the Globe, executing our Father's will. These are but a small sampling of Your accomplishments. Thank You, we are grateful for all of them.
