**DREAM**  
**The Fake Lion**  
2018-02-09

Dear **Jesus**,

**Friday, 9 February 2018, 9PM.**

On Wednesday, 7 February I had a dream.

**I DREAMED THAT:**

I was standing outside of a two story wood frame house which had a wooden staircase on one of the exterior sides of the house, ascending up to the second story.

There was a lion close by to where I was standing, that I was trying to avoid. I had in my hand a bag of food scraps. I wanted to try to distract the lion with the food scraps long enough for me to get to the staircase and get up to the safety of the upper level.

**END OF DREAM.**

According to angel Gabe, the lion in the dream is a Spirit of Witchcraft assigned by Satan to the office of the President of the United States, beginning with the first president, George Washington. It was the purpose of this Warlock Angel to attempt to influence as much as possible the decisions the President made in order to accomplish the will of Satan, and to eventually destroy the United States.

Our presence with the lion effectively served Legal Papers to him, sending him to the Pit.

This conflict was severe, and left me with sprained back muscles which I am still recovering from. But it is a very small price to pay in order to free the Office of the President from the Spirit of Witchcraft.

Blessings...
