

Letter 667  
**Letter Change Up**  
2018-02-26

Dear **Jesus**,

With the Lord's approval, I will be modifying how I publish these Letters for the foreseeable future.

This is because my time to write actual Letters during the week has become somewhat limited, due to changes in my life.

So, our plan is to publish my weekly Field Notes as a Letter, with supporting commentary where applicable.

This way the Lord and I can achieve our goal of reaching 999 Letters on a more timely basis, and then on to writing actual books.

The Notes that I write represent observations and communications during my work shift, and many have already been used as actual root ideas for previous Letters.

Some of the Notes I have used as TWISpAs, and we may continue to use that approach from time to time. While we already have many Letter drafts of things to write, the Notes are showing themselves important enough to be published on the LTD site.

And with that, on to the next Letter.

P. S. Thank You for the family I didn't know I had.

Blessings...

R. C. Theophilus
