

Letter 680
Bravo Art Bell
 2018-05-20

Dear **Jesus**,

Friday, 18 May 2018, 5AM.

Last month I was at work and listening to an archived episode of Coast to Coast AM with George Noory, when he started to get choked up a little while trying to say that he had some important news to report as soon as it was verified.

I knew that there was only one thing that could effect Mr. Noory in such a manner; the passing away of Art Bell. As I listened, my knowledge was confirmed. George announced that Art Bell, the founder of Coast to Coast AM, had indeed passed away on Friday the 13th of April, 2018.

Art Bell is in large part responsible for my continued employment at (G6), where the temporal disposition of Satan was decided and proclaimed in Spirit-Space almost 5 years ago now. His show distracted me enough from the hatred which existed at (G6) for me to show up for work day by day, get a paycheck, and continue year by year.

One of the most important shows I heard was when he interviewed Vicki Noratuck in September of 2004. She is a Believer who gave her testimony of dying and seeing You at the gates of Heaven, and then coming back to earth to give her own Testimony. Art is also responsible for me finding out about Dr. Michael S. Heiser, as Mr. Heiser was a recurring guest on his show. Dr. Heiser liked to talk about the Biblical accounts of Giants and the Sons of God as the Divine Council. His recent book, *The Unseen Realm*, has played an important roll in our battle campaigns against the Houses of Hell, especially the House of SOG.

I have been told by more than one of my Angel Crew that Art believed in You in his last moments on Earth, and then went to Heaven.

Bravo, Art Bell. Bravo.

Blessings...

R. C. Theophilus
