

Letter 682
My Deliverance is At Hand, and I Am Almost Gone
2018-05-20

Dear **Jesus**,

Sunday, 20 May 2018, 1AM.

A little over a week ago I got a package in the mail from my employer (G6). In it was some information on how (G6) was offering an early retirement option to certain qualified employees. It seems as though I am one of those who qualify.

This means that, according to The Lord Holy Spirit, I can retire at the end of this year, and replace my (G6) income with a Social Security Full Disability Rating sometime in 2019.

This is because my chronic pain issues have become so great that I really cannot work at any job anymore. The only reason I am still working at all is that, because of Your Great Grace, my routine daily cleaning route consists of about 4 hours of actual sustained labor. Most of the rest of the time I spend sitting down, or finding a few easy things to do that really don't need to be done.

This represents to me an answer to my prayer (actually, more like calling on Your Name daily) for an exit strategy to get the fuck out of (G6).

So, I am grateful for this opportunity. Now I can see the day of my deliverance from what has been to me a combination of the Hanoi Hilton and Abu Ghraib Prison.

Please see the attached letter ([click here](#)) I sent to my family doctor.

Blessings...

R. C. Theophilus
