

Letter 694
7 Month Notice
2018-07-04

Dear **Jesus**,

Wednesday, 4 July 2018, 11PM.

In Letter 682 I write about the exit strategy from (G6) which You revealed and that came about in a remarkable way.

Over the years when I would think about how I would leave (G6), I would say to myself that I didn't want anyone to know, because I wanted to chose who I would say "good bye" to. So I would make up various schemes in my mind on how to word my notice of termination.

But I discovered that after I filled out the forms for early retirement, my departure date was posted in the Environmental Break Room for all to see, on account of the Manager had advertised my and others upcoming departures and subsequent job vacancies.

This was toward the end of May, so in effect I had given 7 month notice to my employer, since my official seperation date is scheduled for the 9th of December.

But I began to have misgivings on trying to work so long in my present condition. The thought of continuing to torture myself in order to work a 5 day work-week seemed impossible.

But then, the Lord Holy Spirit gave me an idea. I looked at my vacation time bank, and then calculated how much more I would earn between now and December. It turned out that I would have just enough vacation time to take every Wednesday off, each week through Friday the 7th of December, which will be my last working day.

I filled out the appropriate form and sent it in an email to the manager. In less than two days my request had been approved. So beginning today, Wednesday, the 4th of July, I work no more than two days at a time. Having Wednesdays off will make it possible for me to continue to the end. Its also why I can write this Letter in the middle of the work-week.

Many thanks and praises to Yahweh for His Grace. Thank You Jesus.

Blessings...

R. C. Theophilus.
