

Letter 713
A Template For Healing
2018-09-29

Dear **Jesus**,

Saturday, 29 September 2018, 9PM.

A very remarkable thing happened over the last 2 days.

On Thursday last I developed a dry throat and a tickle in the back of my mouth, which informed me that a New Cold Virus was knocking on my door. Then, after I woke up Friday night and went to work, it seemed as though the knock became a battering ram, and the Virus was threatening to make a full entrance into my body to make me sick. The symptoms got to the point on both days that I needed to use cough drops at night to help me sleep.

During my work-shift on Friday I was remembering what I had learned in Letter 459, and as the Cold Virus began to grow ever stronger that night, I thought that all I had to do was say: "you old cold, go away", like I had with previous "cold wannabes" since Letter 459.

But this Virus was much stronger than the ones in the past, and the cold symptoms kept getting worse. I was still walking in the Spirit of Letter 459, but to no avail. Then, I inquired further of the Lord Holy Spirit on how to deal with this Stronger Cold Virus. After a few minutes He gave me the idea to call on Your Name, and ask You to remove the Cold Virus.

I did this, and in less than a minute the Cold Virus assault lessened to where I could tell it was obeying Your command to leave me alone. Toward the end of shift and after I clocked out from work, I had pretty much forgotten about the cold.

Then, after I got out of bed today at about 6:30PM, while I was having my morning coffee and still waking up, and recovering from a Battle Royale in my sleep, I realized that there was no trace of any cold symptoms. They were all gone. No scratchy throat. No nasal congestion. No sneezes. No tickle in the back of my mouth.

The cold symptoms were, and still are, all gone. So, I am documenting this for the record. Your answer to Our prayer for my healing.

And it occurred to me as I am writing, that this Testimony can be used as a template on how the Lord and I will work together in the future, in order to minister Gifts of Healing to others who will need it. Thank You Jesus!

Blessings...

R. C. Theophilus
