

Letter 723
DREAM
The Burglar
2018-11-21

Dear **Jesus**,

Sunday, 18 November 2018, 8PM.

Today at about 5:30PM I woke from a dream, which left me feeling pretty fatigued.

I DREAMED THAT:

I was sleeping in my bedroom, and a burglar opened my bedroom window and got into the house. The window was already unlocked and opened a little because I like air flow when I sleep.

Then the Thief rifled through my Wife's purse, stealing all the contents. After I woke up (still in the dream), she showed me her now empty purse.

We lived right next to the Police Station, so I went next door in order to file a complaint against the Criminal. As I was walking toward the Main Entrance Doors to the Station, I had to walk past and sort of through a group of Cops. It was shift change, so some were coming on duty, and some were going off duty.

I commented on my situation, and one of the Cops said I should go inside and file a report.
END OF DREAM.

After inquiring of the Lord, He indicated that I was actually interceding against a planned assault, preventing an attack on my wife.

This is why I woke up with sore shoulders, and tired, and still am. But getting better.

Blessings...

R. C. Theophilus
