

Letter 726
DREAM
The Liberation of (CS6)
2018-12-02

Dear **Jesus**,

Sunday, 02 December 2018, 5AM.

The last Thursday evening at the end of my sleep cycle I woke from a dream.

I DREAMED THAT:

I was outside standing on an unpaved road, which was sort of to the side of the main, paved road.

There was a Lady walking on the dirt trail toward me who wanted to befriend me. But I knew she was up to no good, so I rebuffed her familiar advances toward me.

I didn't move from my position, which meant that I stood in her way, preventing her from walking any further.

END OF DREAM.

After I woke up the Lord Holy Spirit explained to me that the Lady in the dream was a High Order Spirit of Witchcraft assigned to the Night Lead at (G6). He further explained that I had come into contact with this same witch spirit earlier, as recorded in Letter 411a Volume 5-15. This was before the "You're Not Here" Rule of Engagement had been established (see Letter 604 Volume 7).

I should note here that last week I only worked 2 days, Monday and Tuesday. Wednesday I was scheduled to have off. Thursday morning I called in absent due to higher than usual pain issues, with the intent of going to work Friday, as my last scheduled work day.

But something happened that changed those plans, which I will report a few Letters from now.

Blessings...
