

Letter 732  
... **And We Still Wage War**  
2018-12-07

Dear **Jesus**,

In Letter 229 Volume 8 I write about my upcoming (official) retirement from active employment.

But I am only retiring from being employed by an earth-space employer. In Kingdom of Heaven terms, I am still a Soldier (see Ephesians 6 and 1st Timothy 2), and, along with the Lord Holy Spirit and my Fellow Angelic Military Personnel, we still wage war.

Evidence of various skirmishes and conflicts have been made known in many of the dreams I have had over the years.

Most recently I had a series of 8 dreams in which there was conflict of some kind. These are documented in Letters 721 - 728 and 730 Volume 8. This was in addition to some conflicts which manifested here in earth-space. See Letter 720 Volume 8.

Earlier in this year, before I received the Retirement Letter from (G6), I had a series of recurring visions at work which were repeated over about a 2 week period.

In the visions I would be standing in the Family Room of my Dad's House, seeing my Dad sitting in His Easy Chair with His feet up on His Footstool, reading the Newspaper. Every so often He would lower the Paper just a little and, glancing over the top edge, look me in the eye with an approving nod, and then go back to reading.

Later on I would see some headlines on the Front Page as He read. One of the headlines was the most prominent and contained only one word:

"WAR".

Throughout the work-days while the visions were going on, the Holy Spirit began to explain what they were about.

Our Father is "taking it easy", ever since handing All Authority over to His Son Jesus. Now, He enjoys reading the Good News about how men are being saved, through the combined efforts of His Son the Redeemer, His Spirit, those who are already Redeemed, and the help of Faithful angels.

The memory of this vision gave me the encouragement I needed to complete my employment at (G6). This was because the pain of my disabled body was too much for me to bear without additional support.

The Wars continue. But now I can fight more on our own terms, and rest as needed, rather than having to force myself to work through inordinate and debilitating pain week after week.

I was also helped by my employer since this last summer, when it was agreed that I could take every Wednesday off on vacation time, of which I had enough. This meant I worked no more than two days in a row on any given week. Then I was able to take my final week, this week, off on vacation.

I am grateful for this. It made it possible for me to complete my tenure of completing 17 years, entering into 18 years, and see things through to completion.

Blessings...

R. C. Theophilus
