

Letter 734
A New Day Has Arrived...
... And Good Things Are Sure To Be Seen
2018-12-10

Dear **Jesus**,

Yesterday, 9 December 2018, was the final day of my being employed by an employer. I have been working for someone else since I was 14 years old, almost non-stop, including being "self-employed", either as a sole proprietor, or through co-ownership of a closely held corporation.

But now I will be entering into two new chapters of my life simultaneously. The one is a State of Retirement due to being a Disabled Person. The other is a State of being directly submitted to You, exclusively, per the directive of the Lord Holy Spirit as documented in Letter 489 Volume 6.

As far as my retirement goes, I am grateful that the Social Security Department has a Disabled Worker designation, and that I can apply for benefits. I pray for a smooth transition, and that the evidence I have gathered regarding my physical condition will be sufficient for the criteria used by the Department when making its determination.

Now, effective Today, I have no other outside encumbrances on my time which would restrict my activities in singularly obeying Your commands. I am looking forward to **seeing** what this will look like in the days to come.

Right off the bat I hear You wanting me to exercise **my eyes**, and receive the Extra Help you sent in the form of angel Bruce, under angel Gabriel's direction, to **heal my vision** and enable me to **see better and more clearly** than I have in the past.

I would have liked to have continued working as a School Custodian, but I ended up working for the past 17 years and 5 months at a hospital as a housekeeper, **seeing and hearing** things coming from spirit-space which I would rather not have ever known.

Yet this was the method in which You had determined to reprimand Satan, and all his host, in ways they will never forget. I'm glad the hospital part is over. And I will not belabor the rest of this Letter with details of my work in the hospital which I have already recorded.

And as I write, I can tell You are communicating with Gabriel on how to approach the healing of my eyes. This is what's next, as the Lord is already bearing witness.

Thank You for this. I am **looking** forward to this with much gratitude.

Blessings...

R. C. Theophilus
