Dear **Jesus**,

In Letter 750 I testify about a dream I had in which certain elements of witchcraft have been removed from the face of the Earth. But I had, and am having, continuing effects from the conflict in the dream. Please allow me to explain.

I had the dream and wrote Letter 750 on the same day, yesterday. Later on, during the course of the day, I had an occasion where I was sitting in my office receiving healing ministry from angel Gabriel. I just closed my eyes and sort of rocked back and forth in one of my office chairs. I was also wondering in the presence of my angel family that the after-effect of this conflict was that bad. But it was.

Later on after I went to bed, I could tell that my right arm was more sore than my left from trying to blow away the curses, so I asked Gabriel if he would massage my arm. He did, and it helped.

Along with this I had strange troubles falling asleep. I would get to a point of sleep, then wake myself up from what I thought was snoring. This happened about a half dozen times, and I started to wonder as to the source.

After that, at some point I decided to eat some toast and watch TV until I got more sleepy. After I was through with watching TV, I prayed to You that You would heal me from whatever was causing this strange sleep malady. Within 10 minutes I fell asleep and slept the rest of the night like I normally do. Thank You Jesus for healing me right on the spot like that.

Today I asked angel Gabe about what caused the sleep problem. He answered by saying that my spirit-man was snoring as a result of influence from an Ondine* Curse which I had opposed with the rest of the witchcraft in the dream. I thought that was weird because I didn't see how spirits can snore, but "OK", Gabe tends to know what he's talking about.

Anyway. I still am tired out from the dream, and I know from past experience that today will be a recovery day. To quote a T-Shirt I once had:

"I'VE USED UP ALL MY SICK DAYS, SO I'M CALLING IN DEAD**"
