Just What Is A Seer?
 2019-02-26

Dear **Jesus**,

Friday, 15 February 2019, 12 Noon.

Earlier today I had an email exchange with a new friend (CB59), in which I observed that he is a **Seer**. One of his comments prompted me to remember a Scripture which gives a definition of the word “Seer”. That in turn gave rise to this series of Letters.

The Book of Isaiah Chapter 29 tells how Yahweh is excoriating the City of Ariel in Israel for its disobedience. In verse 10, there is a description of one of the judgments against Ariel, which includes two revelatory definition of terms. Here is the verse:

*For the Lord has poured out on you
 The spirit of deep sleep,
 And has closed your **eyes**, namely, the **prophets**;
 And He has covered your **heads**, namely, the **seers**.*
Isaiah 29:10

Here we learn that the Lord defines the Prophets as being the Eyes of the City, and the **Seers** as being Heads of the City. The verse above also further defines a **Seer** as being a sub-set of the Head. Therefore, the term “**Seer**” itself has much less to do with political rulership, and much more to do with PERCEPTION and INFORMATION and DATA GATHERING.

The purpose then of this Letter is to identify just what a Seer is. Let us now turn our attention to how many senses a Seer has, by looking at a human head.

1. SKIN: senses
 - a. touch
 - b. pressure
 - c. temperature
 - d. wind-speed.
2. EYES: sense the visible light spectrum, and discerns short, intermediate, and long range aspects.
3. EARS: sense the audible sound spectrum, and discern pleasantness from unpleasantness. The hidden (inner) ear senses equilibrium, atmospheric pressure, and gravitational orientation.

4. MOUTH: senses

- a. texture
 - b. taste
 - c. temperature
- and discerns pleasantness from unpleasantness.

5. NOSE: senses the olfactory spectrum, and discerns pleasantness from unpleasantness.

According to the Lord Holy Spirit, the spirit-man possesses the same attributes which sense similar stimuli in spirit-space, as does the physical man in earth-space. I will now both reference and cite my own Testimony in which my spirit-man experienced these similar sensations.

SKIN - a. touch; and d. wind speed. See Letter(s) 29a, 328.

“The air flowed from underneath the Trailer around me with exceeding great force”
 “...like liquid foam that form-fitted every unique surface that makes me, me.”

EYES - See Letter(s) 08, 09f, 10a, 38 - plus all other Dreams and Visions in Volume 0.

“I could see that everything was clean and in order.”

“I saw up ahead the end of the canal,”

“and just beyond that we could see an American unit dug in.”

“He showed me a job application form with large letters superimposed across the front,”

EARS - See Letter(s) 172, 313a, 470.

“...the last phrase spoken to me by a man...”,

“She finished her sentence with two words that were laced with the most powerful form of flattery I have experienced to date.”

“He came up to my left side, ... , and while giving me a Fatherly hug said these words, spoken with much kindness and joy:”

MOUTH - See Letter(s) 286, 549.

“Angel Gabe’s” really good “coffee recipe...”

“The Cursed Coffee Blend”

NOSE - See Letter(s) 649, 746.

“..., I smelled an odor that I had not smelled in over thirty years.”

“This Movie Smells of SOG”

As we can see from the evidence given, a **Seer** has, at a minimum, the same senses which correspond to that of a human head. Other evidence is available which speak of the rest of the Body, but these facts are presented in order to help clarify what the Gift of **Seer** really is.

Blessings...
