

Letter 768
TERMINAL VISION
Piercing the Highest Wickedness
 2019-03-11

Dear **Jesus**,

Monday, 11 March 2019, 12 NOON.

A very remarkable thing happened...

One morning last week I had awakened early from a conflict in spirit-space. I wanted to go back to sleep, but as I lay in bed attempting to do so, a series of worries began to emerge in my mind. I began to analyze this phenomena, and as I did, my attention was drawn to a High Place above me in spirit-space.

IN THIS VISION:

I saw a Tall Angel standing High Above me with a drawn sword.

He was holding the hilt with both hands, with the sword pointing in a downward thrusting position toward my head. At that moment, I knew the angel was a spirit of wickedness in a high place, and that he was attacking me.

I immediately accessed spirit-space, and grabbed my own Longsword, the one I inherited from my Dad, pointed it up toward the angel's head, and then shoved the point of the sword deep into his throat.

This rendered the angel spirit unable to speak. I also knew that he would die quickly by bleeding out from the puncture wound.

I withdrew my Longsword and waited for a minute or two. Then I became satisfied that we had prevailed, because all the troubling thoughts I was being attacked with had been terminated.

END OF VISION.

Later on the Lord Holy Spirit explained to me that this attack was a retaliatory strike against me in response to what happened in an earlier dream, documented in Letter 762 Volume 9.

Typically, HR is prohibit from retaliating against me due to the policies set forth in the MMIPs, which we generally apply, as led by the Lord, to enemy related situations.

But a MMIP was not applied in this case, in that dream. This was so that this event took place, showing that I could terminate a Spirit of Wickedness in a High Place, from a prone position on the ground laying on my bed, with my own Longsword, practically "in my sleep", and then document what transpired.

The other thing this underscores is the need to “retro-fit” the MMIPs with an upgraded policy which will prevent “side-channel” retaliation from occurring in the future.

Blessings...

R. C. Theophilus
