

Letter 778  
**TERMINAL DREAM**  
**Embryo Man In The Father's Right Hand!**  
2019-04-17

Dear **Jesus**,

**Saturday, 13 April 2019, 10:20AM.**

Last night I had a dream which woke me up, at about 2:30AM.

**I DREAMED THAT:**

I was standing with my Right Hand open in front of me. And in the palm of my open hand lay a Living Embryo of a Man.

The Spirit of the Man was present, already living within the Embryonic Body, and the Man's emotions were just starting to develop.

I could see that the Man's Emotions were responding to me, by the little wiggles he made in his body as my own emotions changed while I beheld this miracle of life.

Standing to my left was a Registered Nurse, who was explaining to me how best to treat the Brand New Human Being who was in the palm of my own Right Hand.

While the Nurse was very knowledgeable in her information, she was subduing her professional clinical attitude in order to present a more compassionate demeanor. Clinical Kindness would be a good term to describe her presentation. The Nurse was displaying the appropriate amounts of Compassion and Professionalism, both for the Embryo Man, and for me.

As I looked at the New Life-form laying in my right hand, I could see clearly both the individual cells of the infant, and the distinct face, mouth, eyes, and nose of a Human Being. I also saw the Work Product of his Human Incarnate Spirit within his Human Body, which is the Human Soul, and which Soul was responding to me in an emotional fashion, with a certain contentment knowing that he was safe.

**END OF DREAM.**

I woke up tired, and a little unclear as to the nature of the dream. Right before I went back to sleep, I considered whether this had to do with the Embryo of a New Babe in Christ.

A couple hours later I woke up for the day, at about 4:30AM, being very sore in my shoulders and tired out from wrestling. Since then, I have been inquiring of the Lord Holy Spirit as to the meaning of the dream.

He has informed me of these three things:

1. the Embryo is the Embryo of a Human Being in the mother's Womb,

and

2. the Embryo also represents a Baby Christian;

both are Alive before Creator God Yahweh.

3. My right hand represents Jesus, the Right Hand of Father God Yahweh.

He also further explained that the reason I woke up sore and tired was from wrestling with HR spirits assigned to the House of Abortion (which is really the House of Idolatry), whose sole purpose was the murder of Humans in the womb, and if possible, Newborns. By wrestling against these spirits, I was saving and protecting the Child. And the spirits are now gone, having been sent to the Pit.

But this dream also gave me reason to think about something that I have wondered about over many years, and that is just what the Scripture teaches as to the origin of the Spirits of Human Beings subsequent to Adam and Eve.

We already know that Adam's spirit-man came directly from Yahweh, when he blew the Breath of Life into Adam's nostrils. The source of Eve's spirit-man is sort of a mystery, as it is not explained in detail, but it does seem likely to have come to her the same way as Adam's, since she was fashioned from a rib taken from Adam's side. It is also possible that Yahweh took part of Adam's spirit-man and fashioned it into Eve's spirit-man, just like her physical body. In any event, the Woman was created in a Mysterious Fashion, and She continues to be so.

I have also wondered from time to time, that while Adam was waking up from his surgery, just what kind of conversation might have taken place between Eve's Creator, and Eve. In all of this however, as far as I have studied, I can find no explicit indication in Scripture just where the spirits of subsequent human beings come from. They are just there. All subsequent creation of Sons & Daughters including their spirits, from the planting of the Seed unto Birth, occurs in a Dark, Secret, and Mysterious place deep in the Earth, the Womb of the Mother\*. I hope in future studies to address this issue, and see if I can find a solution in Scripture.

\*By using this term I am in no way implying support for the notion of "Mother Earth". I am not. In my opinion, the notion of "Mother Earth", both ancient and popular, is a doctrine of demons. What I am suggesting is that Scripture refers to the mother's womb as the Earth, for "dust we are, and from dust we were taken".

P. S. I asked angel Gabriella whether she was the Nurse in the dream. She said she was.

Blessings...

R. C. Theophilus
