

Letter 793
DREAM
Black Map Overlay
2019-05-21

Dear **Yeshua**,

Saturday, 18 May 2019, 7:30AM.

In addition to this day being the anniversary of Mt. St. Helens erupting and blowing up in 1980, I had a dream which woke me up in the middle of my sleep.

I DREAMED THAT:

I was in a room looking at a wall map of the North American Continent. I could tell there were others in the room with me, standing behind where I was, and we were talking about the map I was seeing.

As we looked at the map, we saw that there was an overlay which had black coloring on it, covering the western half up the upper continent, including the two western most provinces of Canada and the greater part of Alaska. Some of the outer Alaskan Islands were not covered by the "Black Cloud" of the overlay.

As I talked with the others, I pointed out to them that the Black Color Overlay represented witchcraft.

END OF DREAM.

I woke up sore in my shoulders, because I was traversing through the Viscous Sewage of Witchcraft in order to receive the message of the dream.

This Sewer Sludge is the effluent from the work product of Spirits of Witchcraft, both fallen angels and demons. It IS NOT from human witches*.

*I have written about human spiritual waste in Letter 449 Volume 6 (click here to see this drawing)

Blessings...

R. C. Theophilus
