

Letter 800
The Spirit of Jesus
2019-06-01

Dear **Yeshua**,

What I am about to describe is something which has occurred to me over a period of many years.

It has to do with what I call the localized presence of the Spirit of Jesus (not the Holy Spirit).

One could say that in doing this, the Spirit of Jesus is Himself multi-locating His own spirit-man, which, since He is Lord God and all, He can do.

This is essentially Jesus being someplace on earth in His Spirit-Man, without it qualifying as the Rapture or the Second Coming, in which He comes in His fullness in His resurrected body, as the Son of Man and Son of God .

In previous Letters I testify to the Spirit of Jesus having been with me in this fashion many times.

The first time I can remember is when He would be present with me in restaurants while I was eating. I would see Him seated across from me in the opposite side of the booth. But He would only do this if I was alone. The time frame for this would be about 1991-1995.

The next occurrence of this that I can remember is after I returned to work and became employed in my father's old job. Jesus would frequently join me while I was cleaning the kitchen, and we would talk about whatever things I had on my mind. Or He would join me outside at break while I had a smoke. The time frame for this would be about 1998-1999.

The next occurrence of this that I can remember is during the time I call the Day of Seven. Jesus was with me almost 24 hours a day, 7 days a week. Frequently I would even wake up and find Him laying next to me in bed (fully clothed in His robes, of course). The time frame for this would be about 1999-2000.

The next occurrence is right after I was hired at (G6). Jesus would again join me for breaks outside while I smoked. The time frame for this would be about 2001-1995.

But for some reason, these visits stopped after about 18 months into my tenure at (G6). Up till now I have never really questioned why. I figured Jesus had a good reason, so I didn't worry about it. This was in about 2002.

But then, in 2015, the Spirit of Jesus returned. I document these occurrences in Letters 210, 339, 340, 352, 412, 413, 452, 489, 528, 568, 613, 721, 773, 791. These also include dreams and visions in which He is prominent.

This is the exhaustive record to date, of my memory* of Jesus being present with me in the localized presence of His Spirit-Man, the effects of which my spirit-man could feel, and producing similar feelings within my physical body.

*In the event I remember more such occurrences, they will be included as and addendum to this Letter.

Blessings...

R. C. Theophilus
