

Letter 802
DREAM
Familiar B'n'B
 2019-06-03

Dear **Yeshua**,

Friday, 31 May 2019, 2:40 AM.

I just woke up from a two part dream. The first part was in preparation for the second part, but otherwise nondescript. But the second part I remember with some clarity.

I DREAMED THAT:

Part 1:

I was with a man who reminded me a lot of (CB59), (already mentioned in letters 753, 780, 781, 795), along with another man* who remained in the background. “(CB59)” was making preparations for some future event or activity.

Part 2:

The man who looked like (CB59) had prepared a bunch of high quality cooked food to take to others who participated in a “healthy eating” lifestyle. I had gathered up the food into a satchel, and then “(CB59)” and I went into a nearby house to deliver the food.

Upon entering the house, I returned the food-satchel to “(CB59)”, and then he and I went downstairs into the basement of the house. I could see that the basement was a mostly open area, and that there were mattresses on the floor and beds set-up along the walls and in the open spaces, all made up for sleeping.

The basement was crowded with a lot of people in their mid to late thirties, many of whom had the appearance of Hippies from the late '60s and early '70s; and the way the downstairs area was set-up reminded me of an old Hippie commune, with multi-colored draperies and beaded curtains hanging here and there. “(CB59)” seemed to already know everyone who was in the basement.

Most of these were male and female couples, who had been assigned to a bed or mattress. Each bed or mattress also served as a living-quarters space assigned to a couple.

END OF DREAM.

Please note that the detail of this dream is derived from a voice recording I made at the time I woke from the dream.

Post dream analysis says that:

Before writing this Letter I had emailed a copy of the voice recording of this dream to (the real) (CB59). Here is his response, which I found very informative:

“The thing that struck me is when you said you went downstairs after entering the house. Since it was HR, could that represent the underworld and taking some sustenance/energy

(the "food") to the HR inhabitants? It sounded as if they were being deceptive, which is not unusual for them. It just seems they were trying to feed off of something symbolized by the food. I believe you said it was healthy so perhaps they were trying to destroy something healthy or even holy."

In the recording I can be heard inquiring of the Lord Holy Spirit as to the overall nature of the dream. He indicated that the house, and "(CB59)", along all other the people in the house, were of HR in origin. So that means both the house and the people, including the (CB59) Imposter, have all been removed from the face of the earth, or as the process has come to be known - "Grilled and Pitted".

*According to the Lord, The Man in the Background was angel Gabe, who was there to provide backup if I needed it.

Blessings...

R. C. Theophilus
