**DREAM**  
**The New Valley Church**  
2019-10-21

Dear **Yeshua**,

**Friday, 7 June 2019, 8:45AM.**

A very remarkable thing happened...

At about 4:30AM, I woke from a dream, which was the second of two dreams.

The first dream I only remember in a general sense, that I was with some people who I didn't like very much. In fact, I didn't like them at all. Before waking up from that dream I said to one of the people that I didn't like them at all. There may have been one or two females and a male. One of females was trying to impersonate my wife. But whatever HR group of people the Lord wanted to remove from the face of the earth has now been removed. I seem to remember waking up at about 3:30 from that dream. Then I went back to sleep, and at 4:30AM, I woke up from dream #2, which I actually do remember pretty clearly.

**I DREAMED THAT:**

I was going to a Church Service in (L39), at the local Assemblies of God Church. The driveway approach to the church building seemed to have changed a little from what I remembered it to be.

As I approached, I saw that the entire Old Church building had been removed, and a much larger, New Building had been built in its place.

It was a very nice exterior design, and the interior was very warm and welcoming. The landscaping closest to the building was all finished, but some of the outlying shrubbery beds hadn't been completed yet. But the building proper and the parking lot was ready for use.

I walked inside, sat down and noticed that it was a full house. The service hadn't started yet. Musicians were at the front getting ready, along with the Pastor and Others. People were still getting to their seats, simultaneously preparing to sit down and saying "hellos" to one another, along with all the other usual "pre-church service stuff" happening in the auditorium which is normal when the Lord Holy Spirit is included.

I noticed someone who I had known for a long time, a Lady who had been the Music Director at the "Old Church" building. I don't think she noticed me, but I recognized her and thought to myself; "There's (CS20)". She had shorter hair than I remembered from when I knew her earlier. She looked real good in the Joy of the Lord.

Then I sat down. But just after being seated, I began to search in one of my pockets for some coins that I was going to put into the offering. They seemed to have slipped out of my pocket and into the seat cushions someplace, so I began to look for them. The guy who was sitting next to me was also helping me search.

**END OF DREAM.**

Post dream analysis says that:

I saw the Church in the Valley the way Jesus sees the Church in the Valley. He sees a New Church, because He makes all things New. But I had to wrestle past HR to get to the New Church, which is why I woke up sore.

Blessings...
