

Letter 834
HR's War Against Tansy Dog
(And All Other Creatures)
Part 2
2019-12-12

Dear **Yeshua**,

Wednesday, 11 December 2019, 6AM.

It has been almost an entire month from when our Tansy Dog was first diagnosed with pancreatitis and diabetes until now. For that whole time until now, and even as I write this Letter, I had entered into conflict with HR surrounding their assault upon all living things. That assault is to turn creatures into gods, and then to induce mankind to worship the creatures, rather than the Creator. This is a purposed and targeted assault by HR against all men, and "all creatures, great and small". We will now designate this weaponized assault as "HR-creaturegod" (HR-cg).

At the beginning of Tansy's sickness, when she was in the hospital, I battled a host of fears and spirits of trauma, part of (HR-cg) which had been strategically set in place in order to destroy the Faith in Creator God Yahweh of any who desired for their pets and animals to be made well.

I can only describe it as a localized pit of Fear (heavy on the fear). According to the Lord Holy Spirit, this Fear Mountain was comprised of the (spirit) bodies of various demons all intertwined together to form a stronghold of despair, anger, financial destitution, frustration, accusation, and other sins of evil.

The intertwining of demonic spirits produced a viscous goo of satanic sludge which is almost impossible to break free from without Extra Help. Peace was nowhere to be found, unless one began to agree with the message of (HR-cg), which is to worship the creature rather than He who is our Creator. Coming into this kind of agreement with (HR-cg) will bring about a deceptive form of harmony with this particular stronghold of (HR-cg), providing a temporary kind of "peace", since the immediate opposition is lessened.

But this agreement with (HR-cg) is idolatry, and brings about certain judgments, stemming from breaking God's Laws, if not quickly repented from.

Part of the result of my battle against (HR-cg) has been that I was left feeling like there is a layer of sand-paper between my spirit-man and my human body. It is very uncomfortable, and can produce debilitating pains, which require special medications from Heaven to remedy.

This past week, Tansy's glucose readings have been steadily increasing. Today at 7:30 AM I will be taking her to the veterinary clinic and leaving her with them until 5PM, so that their technicians can closely monitor her glucose level and record the readings throughout the day, in order to see how her body is responding to the prescribed insulin dosage. I will know more when I pick her up at the end of the day.

But I think it was about a week ago that I began to see in spirit-space that this (HR-cg) Mountain of Fearful Goo was being destroyed and removed by Archangel Michael's fleet of D9 Bulldozers (see Letter 482 Volume 6).

What I didn't know then, but have since discovered, is that (HR-cg) is managed and overseen by a cadre of fallen angel overlords. Now that their weapon is in the process of being destroyed, they have become wroth with me on a personal level, since they know it was me who discovered and prayed for the destruction of their weapon (HR-cg).

My next Letter will describe the conflict which emerged between them and me.

Blessings...

R. C. Theophilus
